Introduction

The aim of this Guide is to bring together sources of financial help available in Wrexham County Borough to support parents with childcare costs.

Accessing funding for childcare costs generally depends on parents'/families' individual circumstances. This means that parents need to find out which sources of funding are relevant and can be accessed by them. Contact details are provided in the Guide to help parents to find out more information.

To enable users to quickly find sources of funding that may be relevant to them, the Guide is split into two sections: -

- ◆ Sources of Funding to help parents with childcare costs
- ◆ Sources of Funding to help student parents with childcare costs.

There is also a list of useful contacts and websites to enable parents to choose how they wish to search for this funding.

Finally, my contact details are given to enable parents to contact me, Lynne Mort (Childcare Funding Officer), for help and advice with childcare funding issues.

Daybreak.

This is a service offering short breaks to parents of disabled children and their siblings where at least one child is between 5 years and 16 years of age, by funding childcare provision for up to 8 hours per week during the school holidays.

A disabled child is defined as a child in receipt of Disability Living Allowance. Priority will be given for children whose condition or disability requires one to one support in order to participate in a childcare scheme.

The fund can be used for services such as:

- ◆ Childminding fees
- ◆ Fees for Out of School Clubs, Playgroups, or activity schemes
- ◆ Hourly pay and expenses
- ◆ Transport costs
- ◆ Provision of special equipment

For more information please contact Tricia at DYNAMIC, Tel: 01978 263656.

(07/07)

Disability Allowances.

The Disability Living Allowance (DLA).

DLA is the main benefit for disabled children and disabled adults (who can claim this for themselves). DLA is not means tested and has two parts. The care component is paid at three rates and helps with personal care. The mobility component helps with mobility and is paid at two rates. If your child or relative is eligible for the higher rate of the mobility component, you may be entitled to a Blue Badge for disabled parking and road exemption.

Getting DLA is very important because it may help you to qualify for extra amounts on other benefits such as Income Support, Job Seeker's Allowance and Housing or Council Tax Benefit. If you are getting Child Tax Credit and you apply for DLA (or if the level of DLA is increased), you should tell the Tax Credits Office that you are doing this. This will protect your right to any backdating of tax credits.

A free information leaflet is available from Contact a Family: Tel 0808 808 3555 Website: www.cafamily.org.uk

The Carer's Allowance.

If you provide a minimum of 35 hours of care to a severely disabled child or adult who receives the middle or highest rate of the care component of DLA, you may be entitled to receive The Carer's Allowance as well. There is an upper limit on what you can earn (after deducting childcare costs) and you cannot study for more than 21 hours a week.

You can't usually be paid the Carer's Allowance if you are receiving Incapacity Benefit, Maternity Allowances, Jobseeker's Allowance or the State Retirement pension. But a claim for the Carer's Allowance may still help you, because it can help you to qualify for other means tested benefits such as Income Support.

The Carer Premium.

The Carer Premium is an extra amount which is added to the means tested benefits set out above. A carer premium is included in the calculations done around your entitlement if you are paid or have claimed the Carer's Allowance and the only reason you are not getting it is because you are getting another benefit instead.

For more information please contact: Benefits Enquiry Line, Tel: 0800 882200 or Website: www.direct.gov.uk

(07/07)

Direct Payments.

You can ask your local authority for a Direct Payment if you are the parent of a disabled child, a disabled young person aged 16-17, or a disabled adult. Direct payments are cash payments from your local authority with which to purchase your own services. These payments can only be made after an assessment.

Direct payments can be used to provide extra help for your child in a nursery or other setting or pay for somebody to come to your house and provide care or transport. Some families use Direct Payments to enable their disabled child to attend a leisure centre or a holiday play-scheme whilst they study.

For more information please contact: Becky Davies, Direct Payments Co-ordinator, Ty AVOW, 21 Egerton Street, Wrexham, LL11 1ND. Tel: 01978 312556.

Working Tax Credit can pay up to 80% of registered approved childcare costs. All childcare for children under 8 has to be registered by CSIW (Care Standards Inspectorate for Wales). Details of registered childcare providers are available from the Children's Information Bureau (CIB), Tel: 01978 292094.

If you're out of work and studying part-time you may well still qualify for Jobseekers' Allowance, as long as your course is less than 21 hours a week and you can show you're still available for work.

If you're over 25 and have been out of work for two years or more, you can do a full-time course linked to specific employment, without losing your allowance. In addition, full-time students may qualify for Jobseekers' Allowance during the summer vacation if they are responsible for a child.

Help available for NHS Students

NHS Bursaries (Wales).

NHS bursaries are available for full-time or part-time pre-registration courses in a range of subjects. To be eligible for a place, students must be accepted for an NHS-funded place. Once a University or College has offered a provisional training place, the Student Grants Unit will send an application pack with guidelines on how to complete an application form and useful information about the Bursary Scheme.

(07/07)

NHS Childcare Scheme.

This scheme for NHS funded students helps students with childcare costs during their study. It will be paid as a supplement to the existing NHS funded bursary. If you are a parent and are interested in training as a nurse, midwife or physiotherapist the NHS can contribute up to 85% of childcare costs.

Entitlement:

- ✓ For one child maximum payable amount is £114.75 a week;
- ✓ For two or more children maximum payable is £170 a week.

Students are eligible to apply for dependant children aged under 15, or aged over 17 for children with special education needs, on the first day of the academic year. Every childcare allowance is calculated individually and the amount awarded will depend on a student's circumstances and the income available to their family. Childcare must be provided by a registered or approved childcare provider.

Childcare Allowance cannot be claimed in addition to the childcare element of Working Tax Credit.

NHS Dependants Allowance.

These are payable to students for people who are wholly or mainly financially dependant on them during their time in training. Husbands/wives (or unmarried partner in the case of a student aged 25 or over on the first day of the academic year), children and other adults can be counted. The income of all the students' dependants is taken into account in deciding eligibility for extra allowance.

NHS Single Parent Addition.

This allowance is currently payable to single students with a dependant child or children.

Students and Child Tax Credit.

Child Tax Credit is a payment to help with the costs of raising children. You can claim Child Tax Credit if you are responsible for one child (or young person) or more.

You do not have to be working to claim, and **Full-time and part-time students** can apply. The amount of Child Tax Credit awarded depends on your circumstances and income.

Students who receive the maximum amount of Child Tax Credit should be entitled to free school meals for their children, unless they receive Working Tax Credit.

Child Tax Credit is paid into your bank account direct from the Inland Revenue every week or every four weeks. The Inland Revenue Website enables you to check how much you could get and to make your claim on-line.

Students and Working Tax Credit

This is a payment to top up the earnings of working people on low incomes. To claim this at least one parent has to be working 16 hours or more. It is paid in addition to any Child Tax Credit you may be entitled to.

Childcare element of Working Tax Credit

Extra help towards the cost of registered approved childcare is known as the "Childcare element" of Working Tax Credit. From April 2006, the maximum proportion of childcare costs covered by the childcare element of the Working Tax Credit increases from 70 per cent to 80 per cent. You can only get this help if:

- ✓ You are working at least 16 hours a week, or,
- ✓ If you are part of a couple, both you and your partner must each work at least 16 hours a week unless one of you is unable to work due to incapacity.

For young parents in school, if the grandparents are in work they can claim the childcare element of the Working Tax Credit in respect of their grandchild.

The childcare element is paid directly to the person who is mainly responsible for caring for the children in the family, alongside any payments for Child Tax Credit.
